Finding A Direct Mail House

The easiest way to send your direct mail postcards is to have a direct mail house take care of everything for you. 100% Turnkey...That is...unless you want to start printing labels, affixing labels, zip plus 4 sorting, batching, bundling, preparing postal reports and delivering your mail to the post office. This is why Direct Mail Houses were created. Here's how to find a mail house in your area...

Search on Google for "mailing services" and include your city as well.

mailing services palm desert ca

When you Google the above search term, a number of companies will come up. You should be looking for a company that has a description like this:

We have been providing a full range of direct mail services to businesses for the last several years.

Typically you'll want a mail house that will do the following:

- Create computer mailing list from the excel spreadsheet you provide them.
- Add Zip + 4 delivery barcodes for maximum postal discounts
- Run your list through the NCOA (National Change of Address Database) Requirement by the Post Office
- Print and apply 2 x 4 inch white labels directly on your mail piece.
- Then sort, batch, bundle, prepare postal reports and deliver your mailing to the post office.
